WILLOR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

A CURE FOR CONSUMPTION, COUGHS, COLDS ASTHMA, BRONCHITES, GENERAL DEBILITY, AND ALL SCROFULOUS HUMORS.

THE Proprietor has succeeded (from directions of Professor Stone) in combining the Oil and Lime so perfectly that the taste of the Oil, which is so nauseous to persons generally, is entirely overcome, and it can be taken by the most delicate females with pleasure. And as regards the benefit of this article over the clear oil, the following case, by Prof. Stone, is sufficient to convince the most skeptical. The young lady was twenty-four years of age.

"Her disease was one of an mixed phthisic, which had been expected to terminate in the course of a few months, fatally. The upper part of both her lungs were filled with tubercles and in some places were beginning to soften. The case was evidently a hopeless. The treatment of Cod Liver Oil was at first used, but without marked improvement. The Phosphate of Lime was then administered with the oil, and the result, as in the case of many others, was soon apparent. The patient was rapidly getting well."

CAUTION—On account of the great reputation of this Compound for all Lung complaints, the subscriber would caution the afflicted against using any except that manufactured by him, as he has the only recipe in the United States for combining the pure Oil with lime in a proper manner. Therefore as you value your health, purchase none except that manufactured by

DR. HAMPTON'S VEGETABLE TINCTURE,

The Great Restorative and Invigorator of the System.

This article, which has made so many wonderful cures, was discovered by Dr. Isaac Hampton, of Louisville, Ky., now in the fine health in the 70th year of his age, and is acknowledged by those who have used it to be the best family medicine in use, and *is warranted free from all mineral substances.* By its mild action on the Stomach, Liver and Kidneys, it will cure the diseases of those organs, with all Chronic Complaints, as *Dyspepsia, Cough, Asthma, Bronchial and Lung* Affections, Pains in the Back, Side and Breast, Consumption, Scrofula, Fits, Rheumatism, Gout, Neuralgia, Fistula, Bowel Complaints, Worms, and Nervous Debility,

with all diseases arising from Impure Blood. As a Female Medicine it has no equal. It will change the complexion from a pallid to a blooming one.

JAMES FREDERICK FOSTER,

MANUFACTURER OF

Ratchet and Spiral Trusses,

BOSTON, MASS.

ALL the various approved TRUSSES constantly on hand.

Had be waited upon by Mrs. Caroline D. Foster, who has had *twenty years'* experience in the business.

TESTIMONIALS.

The following certificate from Dr. John C. Warren, of Boston, was given 17 years since, but will last forever.

BOSTON, Jan. 5, 1853.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr. J. F. Foster to supply the deficiency occasioned by the death of Mr. Beath.—After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the manufacture of these instruments, and ingenious in accomplishing the difficulty of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply the wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned take great pleasure in recommending to the favorable consideration of those, who are unhappily afflicted with Hernia, Mr. James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of us for years past) and therefore speak from personal knowledge of his abilities. His early advantages, his long page once in the business, and the large number of his patrons whom he has relieved in a variety of cases, render him, in our opinion, equal, if not superior, to any manufacturer of the article. His father, Dea. Gideon Foster of Charlestown, was master of the Poor-house in that town for upwards of twenty-four years, during which period Mr. Foster availed himself of the opportunity, and made applications of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its great excellence consists in its adaptation to the body, at the same time retaining the patient. Any old rough mechanic may make a Truss, but none but a skilful practitioner can apply it in such a manner as effectually and speedily cure the complaint.

Our experience has convinced us that Mr. Foster has thoroughly mastered this knowledge. The certificates of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully sustain the opinion we here express.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, W. SLINGTON.

No. 22 State Street, . . Boston.

IMPORTANT INFORMATION TO INVENTORS. The subscriber (late Agent of the U. S. Patent Office, under the Act. of 1837) determined to present advantages, in applying for patents, superior to those offered inventors by others has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*) as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal brought him within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, or procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringements of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claim of any patent furnished by remitting *one* dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern improvements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Butters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

Great Excitement!

Among Carriage Makers.

THE subscribers have purchased the right to make, use and sell

Everett's Patent Coupling

for the Counties of Penobscot, Piscataquis, Waldo, Hancock, Washington and Aroostook. The advantages of the above Coupling, over the old method of connecting the main part of the Carriage with the front part is such that it must come into general use when it is properly understood. High forward wheels can be used, and we get rid of the falling irons, as the wheels do not strike the body, and the carriage turns in a very small compass the hind wheels not describing more than 4 to 6 feet circle. It is perfectly simple, and not so liable to get out of order as the old method. Those who have used the above are fully satisfied of its utility, as certificates below show. It can be attached to old carriages at a small expense, and we are prepared to sell the right for towns, owns, and would sell a part of the above named Counties, at such a rate that any smart man, with a small capital, could realize a great profit from the sale of the above. Any person wishing information will receive immediate attention at our place of business, or by dropping us a line (post paid).

PROFESSOR ALEX. C. BARRY'S

TRICOPHEROUS,

or Medicated Compound,

FOR beautifying, improving, and preserving the Hair, curing cuts, bruises, burns, stings, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who purchase, use, and approve of it, have probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 910,000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $100,000.

This plain, unvarnished tale, is a better commentary on the value of the article than any thing its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c.—it would not, of course, be so universally in demand. The very big portion of the public would buy it at any price but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits.

Sold in large bottles (price 25 cents) at wholesale and retail, at the manufactory and depot 137 Broadway, New York and by the principal merchants and druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

WOOLEN FACTORY.

THE subscriber having commenced business again at this Factory, would respectfully offer his services to Farmers and Wool Dealers, for the manufacturing of Woolen Goods, Carding Rolls, and Cloth Dressing. Having added new Cards, and put the machinery in good repair, he will do all business in this line in the best manner, and at very low prices. Particular attention paid to making heavy hard twisted Flannels and Satinets.

Weaving Horse-tun Yarn.

The subscriber has, within a few years, introduced the business of weaving horse-tun Yarn into stout Satinet and cotton warp Flannel which gives very general satisfaction, and is a saving of expense and trouble.

It requires about 3¼ skeins to a yard for good satinet. The yarn should be sheared and sent in a bag. Price for finding warp, weaving and dressing, 26 cts per yd.

For Blankets and Flannel, 1 yd wide, inc uding warp, 12 cts.

Coloring and Cloth-dressing from 3 to 12½ cents per yard.

Cloth and yarn can be left at LINT'S WOOL STORE, Bangor, and the work will be done at short notice, without charge for transportation.

The European Protest in the Kosta affair.

It was telegraphed from Washington a few days since, that Russia and Austria had filed a protest against the conduct of Capt. Ingraham in the Costa affair. The above statement has been reiterated, with the important addition, that England and France joined in the protest; and the latest telegraph on the subject contradicts the whole story, except so far as Austria is concerned. What the Telegraph will say next it is impossible to tell. The National Intelligencer notices the report that the Ministers of England and France as well as Austria, Russia and Prussia have filed a protest against the conduct of Capt. Ingraham on the Kosta affair, and expresses its belief in the same.

The New York Express professes to have full particulars in regard to the dissent, protest, or whatever it was, the manner of its delivery, &c. We copy from the Express:

"We have had some conversation with a very intelligent gentleman, well versed in European diplomacy both in Europe and in Washington, from which we learn,—

That not only have Austria, Russia and Prussia remonstrated against the course of Capt. Ingraham on the Kosta affair, and the alleged American principles involved in it—but that Great Britain and France have joined the remonstrance,—and that all these powers have very clearly and emphatically said, though kindly, that such proceedings shall not be tolerated in European waters.

We also understand that the British minister, Mr. Crampton, led off on the occasion, followed by the French Minister—and we are told that both spoke in clear and decided terms.

The communications were verbal, and courteous—but Great Britain and France may unite in a joint note to the government of the United States, though as yet they are contented with the verbal declaration. The British minister paid the first visit to Mr. Marcy on the subject.

Europe, in short, generally and officially, as we understand it, declares that her native born subjects, when returning to Europe, owe allegiance to the European governments, under which they were born—and that allegiance, (perhaps we are not quite correct in this) cannot be forfeited, until they are naturalized in the United States. The British doctrine is, once a British subject, always a British subject.

Correspondence on citizenship once took place between Mr. Buchanan, when Secretary of State, Mr. Bancroft, when Minister, and the British Minister for Foreign Affairs. The dispute arose in the case of Bergen, alleged to be an Irishman, but naturalized in the United States. Mr Buchanan had to back out of his early instructions to Mr. Bancroft.

The European Governments have become alarmed by our Filibustering here in the United States and have put their feet down. We shall have a world of blustering—but the world will not be set on fire. Mr. Marcy's prepared State paper and a bucket of cold water thrown upon it by Mr. Crampton's presence in his state-chamber.

☞ The Boston Journal states that the Money market has taken a favorable turn within a day or two past, and borrowers are able to make easier terms in negotiation, although high figures are still demanded. Capital from neighboring States and provinces, attracted by the profitable rates so long ruling in this market, has been employed recently to considerable extent. We hear of one negotiation, amounting to $300,000, at 9 per cent. These new supplies are assisting to relieve the community of a pressure which has continued for an unusual length of time, in view of the local character of the causes of stringency.

☞ The Manchester Print works, burnt on Thursday last, caused a loss of $125,000—$75,000 worth of stock and $50,000 cost of the building and machinery. Six firemen had their hands and faces more or less burned. By this fire about four hundred men are thrown out of employment, but the company will rebuild immediately. Insured for the full amount of the loss.

☞ One branch of the Locofoco party in Massachusetts has nominated for Governor Judge Bishop, and for Lieut. Governor Levi A. Dowley. This is the regular organization. The other, the national branch of the party, that can not and will not follow the President in his Tyrannization, has nominated for Governor Bradford L. Wale, and for Lieut. Governor George Osborn, of Danvers.

Rev. Charles Freeman, the well known pastor of the Congregational Church in Lyme, Ct., in this State, died on Monday of last week. He was a son of Judge Freeman, a distinguished citizen intimately connected with the early official history of Portland.

☞ Nathaniel Stevens Esq., of Andover, has harvested forty bushels winter wheat from one acre and a quarter of ground. It was sown in September of last year, and harvested in July.

The resolution declaring vacant the seats of the Judges of the Supreme Court, passed the House of Representatives of Rhode Island 23d inst.

☞ The Bath Mirror states that the ship of 1,300 tons, about to be launched by Mr. Johnson Rideout, is the fifty-fourth ship he has built the first having been built in 1823.

Galveston dates of 16th inst., have been received in New Orleans. It is reported that Major Arnold, commandant at Fort Worth, was killed by Dr. Steiner, the fort surgeon, in a personal encounter.

☞ We learn from the Lowell Courier that the Directors of the several manufacturing corporations in Lowell have united in an arrangement to reduce the time of running the mills to eleven hours a day.

☞ The Peoples' Press says that Mr Diggles, in New Sharon, Franklin county, employs over one hundred females in making the single article of coats for a celebrated Boston establishment.

The United States Convention of Universalists convened at Columbus, Ohio, on Wednesday. Delegates from most of the States in the Union were present.

Drowned, in Bath, Tuesday afternoon, Eben C., son of Mem. Randall, Esq., aged 8 years.

We carry our neighbor's crimes in sight, but bear our own over our shoulders.

Fire.

On Sunday afternoon a fire broke out in the basement of the joiner's shop on Franklin Bridge occupied by O. P. Sawtelle. The fire had communicated with the shavings and other dry materials on the main floor before the alarm was given and nothing was saved, although there were in the room several chests of tools, all the finishing materials prepared for the dwelling house of Mr. Wm. Lewis, lumber, &c.

Mr. Sawtelle's loss in tools and materials is $1009. No insurance.

His workmen also lost tools—Mr. Albert Strout, chest of tools $125; Alonzo Tebbets, chest of tools $125; D. H. Bennett, tools $20.

The building was owned by widow Stephen Giddings. Loss $200. No insurance.

The fire was probably caused by Sunday loafers, either through carelessness or design.

Had it not been for the promptness of the Fire Department in getting and keeping command of the bridge, the fire must have been very destructive. The yearly cost of the department was more than saved yesterday.

☞ On Wednesday night last a terrible riot took place between two companies of New York firemen. Company No. 18 made an attack upon the members of No. 44, in their engine house, with paving stones, bricks, &c. and as fast as the men emerged from the building they were shot at with pistols. Fortunately no lives were lost. Several of the ringleaders were arrested.

☞ The Post Office at Fort Fairfield, Aroostook Co. has been discontinued. Mail matter for that place should be directed to Presque Isle, Me.

NEW ORLEANS, Sept. 23. Total number of deaths reported for the 24 hours ending this morning, was 28, of which 14 were from yellow fever.

At Mobile on Thursday, the interments were 20, including 9 from fever.

Bad accounts continue to be received from the river coast, and great mortality prevailed at Grand Gulf and Fort Gibson. Delegates from the Howard Association were asking for more nurses, and to them was readily furnished in all directions.

VICKSBURG, Sept. 28. The fever continues its ravages. Among the victims are Rev. Mr. Pattison, Episcopal clergyman, and Rev. Mr. Rabaneau, Catholic Priest. The fever is still raging at Yazoo City.

CHARLESTON, S. C. Sept. 23. Deaths last week, 27.—O. C. Wadsworth of Mobile, farmer of class, died of fever.

☞ A correspondent of the Boston Transcript who has been enjoying himself in an excursion to Moose Head Lake, thus sketches a view of the country on the route home from the lake to Bostor, by the way of Bangor.

If the traveller, whom in my last communication I left in comfortable quarters at Moose Head Lake, has sufficiently tested his eyes upon the unsurpassed beauty of its varied scenery, and his appetite upon the luxurious products of its bosom and its shores, perhaps he is ready to avail himself of the homeward route, which I promised to indicate. The one which I would recommend is, by stage to Bangor, by steam to Portland, and by the cars thence to Boston,—which can (like the route to the Lake) be easily accomplished within two days,—the intervening night being passed at Bangor.

The stage leaves the foot of the Lake at about sunrise, and reaches Bangor, 66 miles distant, before night, stopping a reasonable time for breakfast and dinner on the way. The steamboat leaves Bangor at an early hour in the morning, calling at a number of places on the river and the coast, and arrives in Portland in season to enable her passengers to reach Boston at 8 o'clock, by a train which waits expressly for the purpose.

The road from the Lake to Bangor is a good one, and comparatively level, much of it lying in the valleys of water courses, instead of crossing them at right angles, like the road from Skowhegan. A considerable portion of the first half is near the banks of the Piscataquis, and the latter part is chiefly in the valley of the Kenduskeag—tributary branch of the Penobscot. The traveller who may have imagined that he should perceive but few signs of civilization in the neighborhood of the wild lands, (of speculation celebrity,) will be not a little astonished at the constant recurrence to his observation, of rich and smiling farms, and thrifty hamlets, to say nothing of several villages. Even in the most secluded parts of the route, the eye is greeted, at no long intervals, with the site of the *school-house*, which of itself sufficiently accounts for surrounding indications of that intelligent enterprise which is converting the wilderness into a garden.

Some of the villages are large, and seem to be the abode of plenty and comfort. Among these may be mentioned Monson, (only 12 miles from the Lake) Foxcroft and Dover. This last is the shire town of the county of Piscataquis, prettily situated on the river of that name, with a neat Court House, churches, &c. Corinth, a pretty village on the Kenduskeag, also bespeaks the pleased attention of the traveller. The views from several points on the route are very extensive,—Katahdin, with her sister mountains, far away in a north-easterly direction from the line of the road, presenting a lofty and imposing boundary to the prospect in that quarter. The view of Bangor, as you look down into the valley of the Penobscot from the highlands, over which the road passes, (at a mile or more of distance) is one of the finest city views in our country.

Behold a town covering a large extent of ground, all it edifices apparently new, the white color preponderating, with its domes and steeples, and a forest of masts rising from the bosom of its broad and beautiful river, all relieved by hills and dark woods beyond, and gilded by the rays of the setting sun! Such a scene bursting suddenly upon the vision of the traveller, who knows but little of this region other than that he is in the so-called "backwoods of Maine," 60 miles distant from the ocean, is a sight he is not likely ever to forget. Your space, and the cursory nature of these sketches, will not permit my pen to linger upon the many attractions of Bangor and its environs—the Lumber Metropolis of New England.

The river throughout its course from Bangor to Owl's Head, at its mouth, presents objects of interest to the eye of the traveller—its shores, in effect to scenery, bearing comparison even with those of the noble Hudson. The rest of the voyage to Portland, passing at times in sight of towns and numerous fishing vessels, near prominent headlands, (crowned in some cases with light-houses,) through groups of sea beaten rocks and islets, produces, as your steamer moves swiftly on, an impression not unlike some of the panoramas which at times delight crowded assemblies of our people—without the depreciating conviction of the unreality of the "insubstantial pageant."

Good News from the Rio Grande.

NEW ORLEANS, Sept. 22.

We have Brownsville dates to the 16th inst. The Flag contradicts the war stories, and says that there has been no augmentation of the Mexican forces ordered out, and that there never existed more friendly relations between both sides of the Rio Grande.

A word of kindness is a seed which even when dropped by chance, is sure to spring up a flower.

FOREIGN ITEMS.

The Africa arrived at New York on Thursday.

The English papers reprint from American papers Lord John Russell's manifesto on the tripartite guarantee of Cuba. The document is a surprise to the British public.

Nothing decisive on the Turkish question is received. The Czar's reply cannot arrive by courier for some days,—say the 15th, but the fact that he hesitates to telegraph his reply had awakened symptoms of renewed anxiety, and had depressed British and French funds; his answer, many, however, yet think may be peaceful.

The French Government were anxiously laboring to make it seem that it is not interfering with the legitimate course of trade in buying Breadstuffs. The Moniteur publishes an announcement that the Government is not buying up Corn; a most extraordinary statement, it being notorious that it has purchased immensely. All is quiet in France, except some insignificant bread riots at Bois le Dun, &c.—The Emperor is still at Dieppe. The navigation dues have been repealed till December, on all vessels passing on French Rivers or Canals, with Corn

The Roman territories are in a very disturbed state; the nominal cause is scarcity of food.

It is rumored from Paris, on the authority of the Russian embassy, that the Czar will refuse to accept the modifications, emanating directly from the Porte.

IMPORTANT FROM NEW MEXICO. The New Orleans Picayune has advices form New Mexico ten days later. The five companies of U. S. troops ordered by the American Government to proceed to New Mexico and which left New York in the steamship Louisiana under Gen. Garland, had arrived at Santa Fe in good health.

Hon. David Merriweather of Kentucky, the newly appointed Governor of New Mexico had arrived out and been inaugurated amidst much rejoicing.

A terrible battle had taken place between a party of Apachas who murdered over 200 and a company of fourteen Americans in the mountains near El Paso, in which 11 of the Americans were horribly mangled and killed. The U. S. dragoons stationed near the spot where, too few in numbers to render the least assistance in repelling the Indians.

The American Consul at El Paso had announced his belief that in the event of an attack upon Mesilla by Gen. Garland and his forces they would meet with very little if any resistance. Mexican troops continue to arrive upon the Rio Grande. The American troops stationed in Texas were also actively engaged in concentrating upon the same spot.

LARGE ROBBERY AND ARREST.—On Wednesday last, Dr. Samuel Plaisted of Waterville, Me., arrived in this city with $1200 in bank bills and a valuable mortgage paper in his possession. During the day Dr. P. visited a place of public exhibition in this city, and yesterday morning he ascertained that his money was gone.

On Wednesday night (before Dr. P. ascertained his loss) Constable W. K. Jones assisted by Watchman Jellison arrested in Ann street, a man named John Trainer who has just been discharged from the House of Correction, after having served out a term of two years for robbery. It appears that Trainer on Wednesday night, after getting Mr. Wm. Trant, of No. 8 Ann street, to change a $20 bill, handed him a $1000 bill and a paper for safe keeping. Trant carried the money and mortgage to Constable Jones who proceeded to arrest Trainer. In the Police Court, yesterday, he was committed in default of bail in $5000 for trial in the Municipal Court. There is no doubt that Trainer had robbed Dr. P. at some public place and it is particularly fortunate for the latter, that the money so soon reached the possession of the officers.—Boston Traveller.

THE OPENING OF THE NEW COLLEGE AT ST. HYACINTH.—This event took place on Thursday, Sept 8th, the Pope's Nuncio to Brazil assisting at the ceremony. Since the Portland railway has made the village of St. Hyacinthe familiar to all our citizens, it will be remembered that the old college building stood on the ridge above the main street of the village, and probably most of them may also have remarked the much more splendid new building at some distance east of the village, erected on ground presented by Mr. Cadotte of St. Hyacinthe. The Minerve says that one hundred and fifty-six priests were present in one room of the college, and four Canadian Bishops, besides the Archbishop of Thebes. Three ecclesiastics of the college received holy orders, and two deacons orders, from the Nuncio. After some ceremonies by way of opening the college, the Principal called on the Nuncio for his blessing, which was given the college and the people of Canada. Afterwards Mr Dessaulles, the Mayor of St. Hyacinthe, presented a complimentary address to the Nuncio, on behalf of the people of his municipality, tendering their personal respects to himself, and assuring him of their devotion to the Pope and their attachment to their creed. Mgr. Bedini in his reply, congratulated the people on the happiness which he saw around him. This, he said, arose from their religion—the source of real happiness, which was infinitely better than that pretended progress, pretended prosperity, and pretended happiness, which other nations sought for in revolutions which upset all the world. His desire was to spread far and wide that there was a country far from Europe, but worthy to surpass Europe, where the people were wise and happy, because they were religious. The college was, he said, another proof that Catholicism loved education and light, and detested ignorance and darkness.—Montreal Herald.

A NEW IDEA. Mr. J. B. Lindsay of Dundee, who is at present in Glasgow, propounds a startling theory—that of forming an electric telegraph betwixt Great Britian and America without employing submerged wires, or wires of any kind. At the meeting in the Athenæum Mr. Lindsay illustrated his method. A large trough of salt water was employed, across which he transmitted the electric current without any metallic conductor the water itself being the only medium of communication. Mr. Lindsay explained that he had obtained similar results over a breadth of sixty feet of water. Some calculations have been made in regard to the expense, and Mr. Lindsey computes, according to his present information, that the cost of the necessary battery and land wires to establish a communication between Great Britian and America, would not exceed £60,000.

A SUBSTITUTE FOR STEREOTYPING. Fillmer & Co. of this city, have adopted, with success, a system of electrotyping moulds taken of type in wax, which is said to have a decided advantage over ordinary stereotyping. Their process is as follows:—Having taken a mould of the type in wax, they put it into a solution of copper, and apply to it a powerful galvanic battery, which causes the copper to be deposited with such accuracy upon the mould as to make a perfect copper face, which will last much longer than the ordinary metal face, without costing any more. The process occupies about 12 hours. We understand that the Messrs. Harpers employ this process exclusively in their establishment.—N. Y. Evening Post.

An extensive lumber dealer of Milwaukie was arrested last week for cutting timber on the Government lands in Michigan.

Every farmer should be provided with a small quantity of the coarser kinds of paint—a few pots and brushes, red paint, oil, and should keep his carts, implements, plows, harrows, &c. well painted with paint.

THE GRAPE DISEASE. A correspondent of the New York Evening Post, who has recently returned from Germany, gives the following gloomy account of the progress of the grape disease:

"Let America prepare for dear wines, because all over Europe that fatal disease, called 'Traubenkrankheit,' is spreading. It consists of a white mildew, that spreads over the whole grape and completely destroys it. It is as inexplicable to vineyard men as the potato disease to farmers. Italy and Tyrol are fatally affected by it. In Germany it is just beginning to make its appearance. Grapes on trellisses are worse affected by it than those in vineyards. No cure has yet been found, and it is spreading all over grape-growing Europe. The papers are full of proposed remedies, but none give a permanent relief. Political economists stand aghast at a future in which there is to be neither wine for the rich, nor potatoes for the poor.

Many papers state the European grape sickness to be the same as that of the United States, but such is not the fact. Ours is a rot; theirs is a white mildew. Ours shows itself by blue spots upon the berries; theirs by a white mildew all over the grape. Ours leaves a few sound berries; theirs destroys the whole grape."

TRANSPLANTING GARDEN PLANTS.

I presume it will be satisfactory to many, to be informed when the different species of garden plants may be most advantageously transplanted. The months of August and September are preferable in this State and in states to the north of it, for transplanting the following species; and the months of September and October for the states adjoining them on the south as far as the line of the Potomac; and October and November for the more southern states.

Strawberries of all kinds, if planted as above stated will produce a fair crop the ensuing summer. It is preferable that the beds be three feet wide, and that four rows lengthwise be planted in the beds the plants a foot apart each way. This width will admit of the fruit being gathered from the sides without trampling on the beds, as is of necessity the case when the beds are of greater width. It need scarcely be stated that the ground should be previously well plowed or deeply dug and mellowed. A moist soil is preferable, and on no grounds will as heavy crops be produced as on ill drained meadow land. The strawberry will however, flourish on dried soil and produce fair crops. The same periods are suitable for transplanting the fine large varieties of Rubarb for tarts, the Sea Kale, Asparagus, Globe Artichoke, Horse Radish, and Patience Dock, (the latter the best of all early greens, and very hardy, permanent and economical,) as they then become well rooted and established before the winter sets in.

All the Hardy species of bulbous flower roots, such as Hyacinths, Tulips, Japan and other Lillies, Crown Imperials, Gladiolus, Bulbous Iris, Crocus, Jonquils, Fritillaries, Ornithologalum, and various others, and all the magnificent varieties (called Tree) Pæony, and of the Chinese and other herbaceous Peonies, will, if planted thus early, become much more vigorous increase more rapidly, and bloom with increased vigor and beauty.

Fruit and Ornamental Trees, Shrubbery and Roses cannot be safely transplanted in this latitude until the first of October, and those intended for the south should not be forwarded until the first of November, at which time vegetation will have become sufficiently dormant for their safe removal. To the Western States, inland, they may be safely forwarded the beginning of October. WM. R. PRINCE.

Flushing, New York. [Country Gentleman.

PENNSYLVANIA HORTICULTURE. The Pennsylvania Horticultural Society opened its annual exhibition at Philadelphia on the 21 inst., and the display of fruits and vegetables was very fine. One gentleman in Massachusetts sends thirty-two different varieties of pears and a gentleman in the interior of Pennsylvania has furnished sixty-six different varieties of apples. Beside, there are other elegant specimens of fruit from Pennsylvania Massachusetts New York, New Jersey, Ohio, Deware, Virginia and Georgia. The display of plums is unusually fine.—N. Y. Evening Post.

The monument in course of erection to the memory of the captors of Andre, is to be dedicated at Tarrytown, on the 7th of October. Governor Seymour is to preside. General Storms has been appointed Grand Marshall, and preparations are being made to celebrate the day with interesting and imposing ceremonies.

Mix occasionally, one part of salt with four or five of wood ashes, and give it to your stock of all kinds during summer and winter. It promotes health and growth materially. Green and fermentable food produces flatulency, and this mixture affords a remedy.

SAM SLICK ON COURTING.—Another wise saw from Mr. Slick's last book.

'Courtin' a gal, I guess, is like catchin' a young horse in the pasture. You put the oats in a pan, hide the halter, and soft sawder the critter, and it comes softly and shyly at first, and puts its nose to the grain, and gets a taste, stands off and munches a little, looks round to see that the coast is clear, and advances cautiously again, ready for a go if you are rough. Well, you soft-sawder it all the time; so-so pet! gently, pet, that's a pretty doll! and gets to kind a like it, and comes closer, and you think you have it, make a grab at its mane, and up head and tail, snorts, wheels short round, lets go both hind feet at you, and off like a shot. That comes of being in a hurry. Now, if you had put your hand up slowly towards its shoulder, and felt along the neck for the mane, it might perhaps drawed away, as much as to say hands off, if you please; I like your oats, but I don't want you; the chance is, you would have caught it. Well, what's your play, now you have missed it? Why, don't give chase, for that only scares the critter; but you stand still, shake the oats in the pan and say cope, cope, cope! and it stops, looks at you, and comes up again, but awful skittish, stretches its neck out ever so far, steals a few grains, and then keeps a respectful distance. Now what do you do then? Why shake the pan, and move slowly as if you were going to leave the pasture; when it repents of being so distrustful, comes up, and you slip the halter on.'

LOVET'S WAHPENE

Will, without doubt, change GRAY HAIR to its original color; cure Baldness, remove all Scurf and Dandruff, and other diseases of the Hair and Scalp.

CAUTION!!

I caution the public against buying an article called "Improved Wahpene," for Lovett's. The said article has been got up, and the name "Improved", to deceive the public and injure the Proprietor of the true "Wahpene", thinking to get off his spurious article under the wide spread reputation of Lovet's. GEO. W. EMERSON, Druggist, No. 4 Smith's Block, is my only authorized agent in Bangor, of whom the genuine Wahpene may be obtained, at wholesale or retail, at my prices. H. T. LOVETT, N. Y. Sept 23 eod2w

The following is from the principal accountant of the wealthy and highly respectable house of Messrs. Voris & Bro, of this city, and presents one of the MOST WONDERFUL CURES in the annals of medical history:

Mr. H. G. Farrell—Dear Sir: Actuated by a sense of gratefulness, I submit the following as an instance of the utility of your great medicine. My child, three years old, was suddenly attacked with a terrible disease, which in less than six hours prostrated it to total helplessness. The limbs became so rigid that not joint could be bent; the flesh turned black and cold and entirely deprived of feeling; the eyes fixed, partially closed, and altogether blind; following this was deafness to all sounds; the spine became contracted, and so curved that when lying on its back the head and heels only touched. Indeed the child presented every appearance of being dead. Immediately on the attack the family physician was called in, and for three weeks he labored to restore it to feeling, but all in vain, although it was blistered a dozen times, and various rubefacient liniments applied. A consultation of physicians was then held, but to no purpose; the case was then brought before the Medical Society, but nothing could be suggested which had not already been done, and the doctors then told me he could do nothing more. We then commenced applying your Liniment freely over the entire length of the spine, and you may imagine, as parents joy, when, after a few applications, returning sensation was apparent, and it rapidly recovered with the exception of the sight, which did not become perfect for nearly a month. The child is now healthy and robust as can be. Five other cases of the same kind occurred previously in my neighborhood, all of which died, when there is no doubt but if your Liniment had been used they would have recovered.

Peoria, March 1, 1851 HENRY G. CLEAVELAND.

A HARD LUMP ON A HORSES BREAST.

Mr. H. G. Farrell—I have used your Arabian Liniment with gratification in several cases, the most remarkable of which was a large lump that appeared on my horses breast. It was very hard, appearing to be hard grade. It remained for nearly a year, when I applied your Liniment, one bottle of which entirely cured it. I can recommend it as the best Liniment I ever used. JOHN CRAWL.

Peoria, Feb 20, 1846

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, becaus so big having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. F. Kimball, Oldtown. French & Hamilton, Dexter. Geo. Parcher, Ellsworth. P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good references as to character, responsibility &c.

SEYMOUR'S GALVANIC
ABDOMINAL SUPPORTER.
THIS apparatus possesses all the mechanical advantages of the Abdominal Supporter now in use, and also some valuable improvements in the galvanic attachment. It has been tested, approved of and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places where introduced, in the treatment of all Nervous diseases which exhibit itself under so many different heads, and particularly in the cure of Uterine difficulties. The benefit derived from which have uniformly terminated in a sufficient guaranty of its utility and general application. The advantage of the over other Supporters are, it cures by its galvanic action, presents a smooth surface that does not retain heat or impurities which pass from the system, and can be kept pure and healthful. The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The abdominal Supporters are for sale by GEO W EMERSON, Druggist No 4 Smith's Block, sole agent for Bangor and vicinity.

John Bunyan's Immortal Allegory
PROBABLY no book save the Bible, has been so extensively read as Bunyan's immortal allegory
The Pilgrim's Progress.
It has been translated into nearly all the different languages of Christendom, and been perused with delight, and holy fervor by all nations. Art has lent her attractions in nearly all the forms of illustration, from the rough *Woodcut* to the exquisite *Steel Engraving*. But to the middle of the nineteenth century and to an American clergyman, are we indebted for the *only pictorial conception* of this immortal work.
The novel and sublime idea of embodying the *entire story*, and transferring the same to a *single picture*, showing the wanderings of Christian from the "City of Destruction" to the Celestial City, presenting at one view to the eye the varied scenes through which he passed originated with Rev DANIEL WEMPT, of Massachusetts. His truly original and beautiful conception was reduced to a most elegant design by HAMMATT BILLINGS, and from this design JOSEPH ANDREWS, the distinguished historical engraver, has produced, after four years of labor, a picture which will take rank among the most superb and elaborate productions of human genius (taste and skill.
The picture is now ready, and will be offered at the Bookstore of the Publishers, and by Agents duly appointed by the Publishers.

Green Mountain Vegetable CEMENT.
BROKEN China, Glass, Earthen Ware, and all Fancy Articles of every description, repaired and mended, making it as strong as before broken without injuring its appearance.
This Cement which has been proved to be of great strength, will be found particularly useful in every family, the simple manner of its application is alone a recommendation. The adhesive property which it contains is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Its success in mending Glass, China, &c, is extraordinary, no ordinary degree of heat affecting it, and as the joints are scarcely perceptible articles of this kind may be made useful for years, which otherwise would have been cast away.

[From the Journal of Commerce, of August 27th]
"Messrs H. I. Pound & Hitchcock, of 56 Water street, on merchants, inform us that their Safe, (one of McFarland's Fire Proof,) at the great fire of the Pearl-st House, although exposed for thirteen hours to the combined effects of burning Rosin and other Oils and a broken Gas Pipe direc ly underneath it, preserved their books and papers in the most perfect order. They were not injured in the least manner."

[From the New-York Evening Mirror, of Aug. 27th.]
"McFARLAND'S SAFES AT THE GREAT FIRE OF THE FEARL STREET HOUSE.—Looking at the ruins of this great fire yesterday, we noticed in Water street several of McFarland's Safes, which were being taken out of the ruins, the insides of which were all in good order. One of them in particular deserves especial notice. It belonged to Messrs Pond and Hitchcock, oil merchants, No 56 Water street, and was exposed to the very hottest part of the fire being covered with burning oil and spirits, and directly under a broken gas pipe from which the gas was escaping in large quantities, and producing an intense heat. It remained in this fiery furnace for thirteen hours, and we are informed by Mr Pond, the owner, that, when opened, his books and papers were found to be in a perfect state of preservation, not even being scorched, and hardly bearing the smell of fire, thus proving itself a perfect salamander. Every merchant should examine them and convince himself of their fire-proof qualities, as some half dozen others of the same make were in the fire, and every one preserved its contents from the least damage."

[From the New York Tribune of August 30th]
"The reputation of McFarland's celebrated Fire Proof Safes have lost nothing at the last great fires, as usual preserving their contents uninjured, and saving many thousands of dollars for their owners. These safes have built for themselves a colossal reputation and are adding to it at every fire. McFarland's motto is 'Excelsior'."

[From the New York Herald of Aug. 25th]
Another convincing proof of the superiority of McFarland's Fire Proof Safes over all others as a protection against fire, is the Safe which can now be seen at the ruins of the great fire on Tuesday night at the Pearl-st House where it was exposed in the hottest core of flames. Pond & Hitchcock No 56 Water st for thirteen hours to the combined effects of burning oil and spirits. Books and papers inside were not even scorched.

Self Acquired Fame!

DR. JOHNSON'S AMERICAN ANODYNE LINIMENT.

For Internal and External Use.

THIS wonderful Medicine, notwithstanding it has never had the advantage of newspaper publicity, has yet acquired a higher and more extended popularity than any other similar compound in the world It is entirely of vegetable extract, perfectly safe to be administered even to the most delicate child and alike astonishing and satisfactory in its effects upon man or beast To those unacquainted with this invaluable medicine we say, Give it a fair trial, and we promise you a radical cure of Coughs Colds, Asthma, Bronchitis Whooping Cough Influenza, Spitting of Blood and all Lung Complaints, Chronic Diarrhœa, and Dysentery in all of which cases it should be used internally The effects of its external application in cases of Rheumatism, Spinal Diseases Sprains, Chapped Hands Bruises Burns, and all descriptions of wounds are magical Persons troubled with Cramp in the Stomach, Side, or Bowels, Sore Throat Piles &c by a combined internal and external application of this Anodyne cannot fail of certain and speedy cure The proprietor can produce volumes of testimonials in its favor but prefers to let it carry its own recommendations, as it has done for forty years past We ask no man to use it after an unsatisfactory trial In its composition it unites several of the most penetrating and healing specifics known to the materia medica—The inventor of this article was in the constant and successful practice of medicine for more than twenty years

This is to certify that having been troubled for a number of years with a distressing cough, and bleeding at the lungs and receiving no benefit from medical aid, in 1848 I was to all appearance in the last stage of consumption My legs swelled so that I was unable to stand or help myself At that time your Liniment was providentially recommended to me and by the use of three or four bottles I was entirely cured, and have since been able to labor every day This is also for the last twenty years been subject to severe attacks of bloody Bleed ing, and never found any permanent relief until I took your Liniment, since which I have had no return of this complaint I can truly say I think your Anodyne Liniment was the means of saving my life JOHN I ATKINS

Brewer, Sept 29, 1852.

Dr Johnson Dear Sir—In consequence of having a fever sore on my leg, it became entirely stiff at the knee and it was decided by the best surgeons that my leg must be amputated—but fortunately I heard of your Anodyne Liniment and by using three bottles, my leg was limbered and strengthened, and for a number of years I have been able to use it about as well as the other I consider myself indebted to the use of your Liniment, through the blessing of Providence, for the use of my leg and would say to others who may need help in this way, try it, and no doubt you will be cured

Warranted Pure.

THE New Jersey Zinc Company furnish their Zinc Paints at the following prices

No 1 White, ground in oil, 9 cents per lb
No 2 White, " in oil 8 " " lb
No 3 White " " in oil, 7 " " lb
Dry White of Zinc 6 cents per lb
Brown and Black, ground in oil 5½ cents per lb

Their *WHITE ZINC PAINT*, equal weight, covers, according to surface from 40 to 1000 per cent more surface than any other paint, retains its whiteness, brilliancy and protective qualities for years, is free from the poisons so dangerous to other pigments, to painters and tenants of newly painted rooms, and resists the sulphurous coal gases and foul air of ships; and as outside or inside paint does not tarnish or become yellow Ground in varnish it forms a beautiful porcelain finish The French Government has adopted Zinc Paint for all uses.

The BROWN AND BLACK ZINC PAINTS form directly a solid metallic coating on wood brick, iron &c, admirable for fire proof qualities They are prepared for railroad cars, depots, bridges &c. For marine uses they resist the corroding of salt water and weather, so fatal to other paints

The Zinc and Fire Proof Paints are sold at wholesale and retail at the manufacturer's prices, by GEO W. EMERSON, Druggist, ... Agent for Bangor, ... Smith's Block

July 16 ... Counsellor at Law, Stewart's Block

It had its origin in the North.

THE RED MAN, with all his Nature, has a skill in the art of healing and healing Medicines. This fact has been known to the natives who have used

Dr. Hart's Genuine Indian Salve.

Every mother with children and all heads of families should keep a box in the house and have it handy in case of accident.

Indian Salve cures Ulcers or Fever Sores.

Mr Ezekiel Ward of Gorham Me whose thirty years has been troubled with a very bad Ulcer on his leg upon his ancle, which has at times been so bad that he was confined to the house and took opium and all the medicine to alay the pain, but found no relief, but by the use of the Indian Salve, was enabled to recover and be able to labor upon his farm with perfect ease and comfort

Mr Andrew Hodgdon of Falmouth, writes that the Indian salve for a very bad Sore Throat has given him more comfort than all the remedies he has applied. It relieves the inflammation, subdues the pain, and enables him to attend to his business as usual

Indian Salve cures Piles.

A man in Buxton, was entirely cured of a severe attack of this painful disease, by a few applications of this wonderful Salve Another Gentleman in Portland, says it gave him instant relief in a case of Piles of long standing

Indian Salve cures Scald Head.

A boy in Lowell was cured of Scald Head by the Indian Salve after many other well tried medicines had failed Another in Sebago was cured of this awful malady after four boxes of All Healing Ointment, and many other remedies had been used, with no good results A child in Portland was cured of a very bad case of Scald Head by using one box.

Indian Salve cures Poisoned Limbs.

Two boys in Scarborough were cured of bad sores on their legs occasioned by being severely poisoned

Indian Salve cures Burns.

A gentleman in Portland had his hand very severely burned with phosphorus, and after trying many remedies with no good effect, was entirely cured with a box of Indian Salve In cases of Burns, if the Salve be applied immediately, it draws out the fire and prevents blistering, and heals at once

Indian Salve cures Cuts and Bruises.

Mr E G Osgood had his thumb and torn up by the roots, and says on applying the Indian Salve the pain subsided and healing took place at once

Indian Salve is the best article in the World for Boils.

Mr D G Plummer, 14 and 15 Market Square, Portland, used this excellent Salve for Boils and has found it an unfailing remedy. It is superior to any Salve he has used

Mr Joseph Mason used it for very painful Boils, and says there is no remedy equal to it for purposes—Prof. Crouch, of Portland used his celebrated Pain Paste for a bad sore, and says it is a remarkable remedy and says it every one that uses it.

Indian Salve is highly spoken of by all who have used it.

In no case does it fail to subdue inflammation and pain and restore to perfect soundness the most painful wound.

NEVER FAILING REMEDY

Holloway's Ointment.

A CRIPPLE SETS ASIDE HIS CRUTCHES AFTER TEN YEARS SUFFERING

Copy of a Letter from Mr Thompson Chemist, Liverpool dated August 20, 1852.

To Professor HOLLOWAY

Dear Sir—I am enabled to furnish you with a most extraordinary cure effected by your invaluable Ointment and Pills which has astonished every person acquainted with the sufferer About ten years ago Mr W Cummins of Saltney Street, in this town was thrown from his horse whereby he received very serious injuries, he had the best medical advice at the time, and was afterwards an inmate of different infirmaries yet he grew worse, and at length a malignant running ulcer settled on his hip, which he completely crippled him that he could not move without crutches for nearly 10 years, recently he began to use your Ointment and Pills, which have now healed the wound, strengthened his limbs and enabled him to dispense with his crutches, so that he can walk with the greatest ease and with renewed health and vigor (Signed) J THOMPSON

A MOST EXTRAORDINARY CURE OF A DREADFUL SKIN DISEASE, WHEN ALL MEDICAL AID HAD FAILED

Copy of a Letter from Mr Hard Draper of Keady near Gosforth dated March 1st 1852

To Professor HOLLOWAY

Sir—Some time since one of my children was afflicted with dreadful eruptions over the body and limbs I obtained the advice of several eminent Surgeons and Physicians, by all of whom the case was considered hopeless At length I tried your Ointment and Pills and without exaggeration the effect was miraculous for by persevering in their use all the eruptions quickly disappeared and the child was restored to perfect health

I previously had a child from a similar complaint and I firmly believe, had I in her case adopted your medicines she would have been saved also I shall be happy to testify the truth of this to any enquirer (Signed) J HIRD Draper

CERTAIN READY FOR SCORBUTIC HUMOURS—AND AN ASTONISHING CURE OF AN OLD LADY SEVENTY YEARS OF AGE OF A BAD LEG

Copy of a Letter from Messrs Walker and Co, Chemists Bath

To Professor HOLLOWAY

Dear Sir—Among the numerous cures effected by the use of your valuable medicines in this neighborhood, we may mention that of an old lady living in the village of Preston, about five miles from this city She had ulcerated wounds in her leg for many years and latterly these increased to such an alarming extent as to defy all the usual remedies her health rapidly giving way under the suffering she endured In this distressing condition she had recourse to your Ointment and Pills, and by the assistance of her friends was enabled to persevere in their use, until she received a perfect cure We have ourselves been greatly astonished at the effect upon so old a person she being above 70 years of age We shall be happy to satisfy any enquiries as to the authenticity of this really wonderful case, either personally or by letter

A private in the Bath Police Force also has been perfectly cured of an old scrofulous affection in the face, after all other means had failed He states that it was entirely by the use of your Ointment, and speaks loudly in its praise

We remain, dear sir Yours faithfully

April 6 1852 (Signed) WALKER & CO

The Pills should be used conjointly with the Ointment in most of the following cases

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff Joints	Sore-throats
Bites of Musketoes and Sand Flies	Elephantiasis	Skin diseases
	Fistulas Gout	Scurvy

To the readers of the Whig

Will you read the Truth.

A MEDICINE must have merit and great merit too, to stand the test of public opinion No art of puffing can galvanize a worthless article so as to keep
